Clearance Divers in the RAN

CDs are the ADF's specialist divers and explosive ordnance disposal and demolition team. Like their counterparts in the SAS and Commando Regiments, CDs undergo arduous acceptance testing. They have served in all major conflicts since 1951 including Malaya, Vietnam, Gulf War, Somalia, Timor Leste, Iraq and Afghanistan

Providing support when ADF/DVA can't

The Trust exists to provide financial relief and other support to current and former members of RAN's CD branch who become deceased, injured or disabled as a result of their service or training. Importantly this relief also extends to their families.

Established in 2011, the Trust is a not-for-profit fund supported by trustee members from the corporate world and ADF
